

SpilMax® Universal Workplace Spill Kits are designed to act as a portable spill control station. Ideal for areas where liquids are stored or used such as workshops, warehouses and decanting areas. The wheelie bin makes it easy to walk your nearby spill kit to the spill.

The absorbents in a Universal Spill Kit are designed to absorb a wide range of liquids including water, oils, fuels, diesel, coolant, general workplace chemicals and common agricultural chemicals.

Since these absorbents also pick up water, they are not recommended for oil on water spills.

Spill kit instructions are on the outside of the bin for easy reference.

| SPILL KIT | TOTAL WEIGHT | DIMENSIONS | REFILL |
|-----------|--------------|--------------------------|--------|
| CHUW3 | 60kg | 0.70mL x 0.60mW x 1.10mH | |

| | | | |
