

## Keep rain out and prevent misuse of spill kit bin.

The Water Filled Drain Cover is a purposeful solution designed to prevent the ingress of liquids into the stormwater network. Providing a robust seal and adaptability to uneven surfaces, it can be easily filled with water to provide instant protection, effectively shielding the drain from the entry of harmful liquids.

### FEATURES

- ✓ UV resistant
- ✓ Custom sized to fit bin
- ✓ Choose from elastic, velcro or sleeve style fit
- ✓ Various grades and strengths of materials for indoor and outdoor use

### APPLICATIONS

- Spill Kits
- Storage Bins
