

### Quickly block drain pit to prevent contamination.

The Water Filled Drain Cover is a purposeful solution designed to prevent the ingress of liquids into the stormwater network. Providing a robust seal and adaptability to uneven surfaces, it can be easily filled with water to provide instant protection, effectively shielding the drain from the entry of harmful liquids.

#### FEATURES

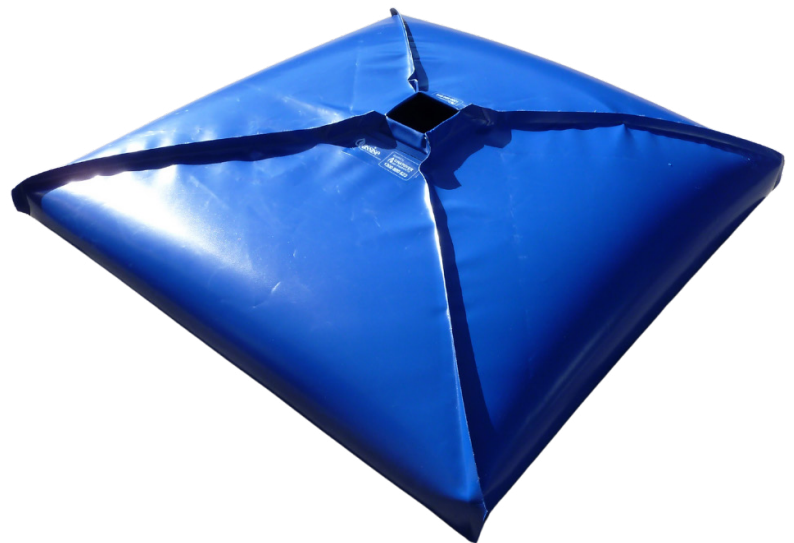

- ✓ 1.3mL x 1.3mW x 300mmH (filled)
- ✓ 900gsm PVC
- ✓ Geotextile underlay (200gsm non woven polypropylene)

#### APPLICATIONS

- Industrial sites
- Vehicle car parks
- Fuel storage & transfer areas
- Aggregate wash down areas

#### OPTION

- Custom designs and materials are available.
